

## TSD Maintenance and Operations Report

May 2022

### **THS**

Athletic storage addition is complete near the baseball field; we will paint it once the weather gets better. During the addition project, Gary also installed a new double door to replace the existing sliding door on the front side. This will help keep critters out and close off a couple of large air gaps.

Spring cleaning took place over spring break, great job Karen and Sam!

### **TMS**

The Osprey have taken to their new nest!

Spring cleaning took place over spring break, great job Christina and Dayln!

### **TES**

Spring cleaning took place over spring break, great job Kathy!

Gym and Commons floors were resurfaced. Thanks to Bill, Tim, Mindy, Kathy and Kate for coming in with me on a Saturday to move out all the furniture and remove all the tape and stickers from each of the floors, as well as for cleaning the floors so thoroughly!

The new TES building is now in place. Electrical, internet and phones are installed and we are working to get the clocks and fire systems tied in.

We continue to be short staffed, so all remaining team members have been working together to make sure things get done.

## Bus Garage

Driver room remodel is complete and moved into, this gives our transportation employees much needed space. We will replace the outdoor lighting and paint the fascia boards once the weather and time permit.

## Other

Rebranding continues with updates to the signage at the District Office, TMS, Baseball field and Fastpitch complex.

We've been mowing all areas that are dry enough to get out on, and are hoping the warmer weather kicks in soon so we can brush hog and mow the areas that are getting tall!
